

Event Highlight

St. Louis Chapter of IFMA

“Preparation and Best Practices for H1N1”

Over 60 members and guests attended our October 21 program at AEP River Operations.

On behalf of our chapter, we thank our host, Sharon Tharp, Facility Manager at AEP, and Fry Wagner Moving & Storage for sponsoring our networking reception. Everything was first-class!

Special thanks to our panelists –

Nicole Holtgrefe, Director of Preparedness and Client Services, American Red Cross

Mark Bagby, Emergency Coordinator – Washington University

Sharon Tharp, Facility Manager – AEP River Operations

Tim Wonish, Director of Facility Services - School District of Clayton

This program topic was very timely. Our members and guests learned about preparedness and prevention in the workplace, as well as to hear what steps each of these facilities were taking to implement an H1N1 program.
